- Experience in leading major construction sites
- Experience in contract and claims management
- Experience in tender and procurement processes
- Experience QA/QC procedures for construction works
- Experience with deep drilling projects is considered as an asset
- Minimum Bachelor of Engineering Degree or similar
- Proven Analytical and problem-solving capabilities
- Excellent communication abilities

About Eavor Technologies Inc.

Eavor (pronounced “Ever”) is a private company founded in 2017 to develop and commercialize disruptive geothermal technology. We mobilize cutting edge oil and gas technology, along with some proprietary solutions, to create the world’s first closed-loop geothermal system. Eavor has successfully built a prototype demonstration facility (“Eavor-Lite”) in Alberta along with our partners. Working with clients and partners, we are progressing a pipeline of commercial projects in Germany, other parts of Europe, the Middle East, Africa, Asia, Australasia and North America.
